1 Things to Do in the Assignment

The following things you have to implement for your first assignment.

1. You will have to create a front page as the example one shown in this document.

2. A table of contents have to be created.

3. You have to write on a specific topic and the name of the topic will replace the "Name of the Assignment" of the front page. The writing will be around 2/3 pages which must have to fulfill the following features-

   - There should be more than one sections and each section should contain more than one subsection.
   - There should be 2/3 images/figures, one of which will be in **wrap figure** mood.
   - There should be 2/3 equations preferably containing powers, summations, integrals, fractions etc.
   - There should be an example of each of the listing techniques shown in the class.
   - You must demonstrate the text formatting techniques in your document.

2 Uploading Procedure

You have to upload two files:

- The tex file
- The generated pdf file

Name your tex file as: **1505abc.tex**. Name your pdf as: **1505abc.pdf**. Put them in a folder. Then name the folder **1505abc**. Finally, zip it. Then upload it.

Note that correct naming convention has 10% marks. Other 90% is from the evaluation.

3 Deadline

The deadline of submission for A1 and B1 is **Saturday** of the third week in our academic calendar: 14 April, 2018, 11:55 PM.

Note that we are taking the files one day before the sessional to perform the dreaded copy-checker.
