

FAQ

1) Once I've created my map how do I edit the abstract?

- a. Save any changes you have made to your map.
- b. Right click on the layer for which you want to edit the abstract, then -> Layer Properties
-> About -> Share Layer -> Update description of this data.
- c. Edit your abstract and any other part of the metadata you want to change.
- d. Click "Update" at the bottom of the form.

2) I'm having trouble uploading a shapefile.

- a. A common problem is the projection. If you can reproject it to Geographic WGS 84 space, EPSG = 4326 that may solve the problem.
- b. Try uploading the file without the SLD file if you included one before.
- c. If you are using non-Latin characters try choosing UTF8 for the encoding.
