DO YOU LIKE YOUR TEXT REALLY

REALLY

BIG?

DECKSET HAS SOMETHING FOR YOU...

HERE IS
THE LOWDOWN

ADD [FIT]

TO THE START
OF ANY HEADLINE

(AFTER THE HASH & BEFORE THE HEADLINE)

LIKE SO: `# [fit] Your awesome headline`

ONLY
USE HEADLINES

START IT WITH A # – NO PARAGRAPHS OR LISTS WITHIN YOUR SLIDE

IF YOU DO ADD SOMETHING ELSE, OTHER THAN A HEADLINE...

We will assume you have more to say and we ignore the [fit] text as it would be pretty weird to squish so much stuff on a slide.
