IMC Exec - Full Term

-- Jason Downing

I am honored to have the opportunity to once again serve on IMEXEC. I am aware of the responsibilities and commitment that must be made in order to be an effective member of this group and I am feeling up to the task once again. Recent changes in the LTER network have presented a number of opportunities and challenges for the IMC and I think now will be a pivotal time for our group to maintain our identity and continue to lead ecological information management.

-- Suzanne Remillard

I am willing to serve on IMEXEC starting after our mid-term review (mid-August). Since my involvement with the LTER IM group in the early oughts, I have participated in many meetings, workshops and activities centered around IM issues. I am fortunate to have a wonderful mentor, Don Henshaw, who has been actively involved with LTER IM since the 1980's. After years of stability, NSF has created some uncertainty within the LTER Network and IMC and I think it's important to rise above this uncertainty and continue to pursue those IM challenges that we have been working, as a group, to achieve. This group (IMC) is an amazing and productive group and I would be happy to be a part of continuing that legacy. I look forward to working with the IMC, EDI and NCO to guide the development of ecological information management.
