

```
const fn = (x) => {  
  if (x < 0) return false;  
  let y = x;  
  let n = 0;  
  while (y) {  
    n = n * 10 + y % 10;  
    y = Math.floor(y / 10);  
  }  
  return n === x;  
}
```
