

Create Artist  
start

```
graph TD; Start([Create Artist start]) --> Fill[Fill main info (without picture) and save]; Fill --> Account([Artist account]); Account --> CreatePic[Create picture (download and cropp)];
```

The flowchart illustrates a four-step process for creating an artist account. It begins with an oval node labeled 'Create Artist start'. An arrow points down to a rectangular process node 'Fill main info (without picture) and save'. Another arrow points down to an oval node labeled 'Artist account'. A final arrow points down to a rectangular process node 'Create picture (download and cropp)'.

Fill main info  
(without picture)  
and save

Artist account

Create picture  
(download and cropp)
